

Henry Ou

Computer Science · University of Sydney

ohenryworks@gmail.com | LinkedIn | GitHub

Profile

Computer Science student building practical software and exploring data. Project experience spans backend APIs, web applications, automated testing, and analytical reporting.

Education

University of Sydney | Bachelor of Science

Feb 2026 - Present

Computer Science major · Statistics minor

Relevant studies: Programming, Data Structures and Algorithms, Discrete Mathematics, Interface Design, Data Science, Linear Algebra.

Selected Projects

Go Review AI | Python, FastAPI, KataGo | [GitHub](#)

- Built a local Python workflow to validate Go game records, analyse moves with KataGo, and rank mistakes by estimated point loss.
- Developed FastAPI analysis jobs with progress and cancellation; verified workflows through automated tests and real KataGo checks.

USYD Course Plan | JavaScript, HTML/CSS | [GitHub](#)

- Built and deployed a degree planner with course search, prerequisite mapping, progress tracking, and semester workload planning.
- Used JavaScript, HTML/CSS, and localStorage to save plans across visits; published on GitHub Pages.

DATA1001 Carbon Intensity | R, Quarto | [GitHub](#)

- Explored carbon-intensity patterns in the Our World in Data CO2 dataset using R.
- Created visualisations and a reproducible Quarto report with clean-energy recommendations.

Technical Skills

Programming Python, Java, JavaScript, HTML/CSS, R

Development FastAPI, REST APIs, automated testing, Git/GitHub

Data and tools Exploratory analysis, visualisation, Quarto, GitHub Pages
